

KONE MOBILE EXPERIENCE LIGHT

Call elevators using your smartphone

USER-FRIENDLY EXPERIENCE

As well as enabling elevator calls, KONE Mobile Experience Light also provides user guidance. The clean, simple user interface makes the app easy to use.

FAST ACCESS TO FAVORITE FLOORS

Users can call an elevator to one of their predefined favorite floors with a single tap and no scrolling.

SIMPLE USER MANAGEMENT

Managing end-user access to the building and different floors is made simple through integration with the building's access management solutions. No separate management solutions or layers are needed.

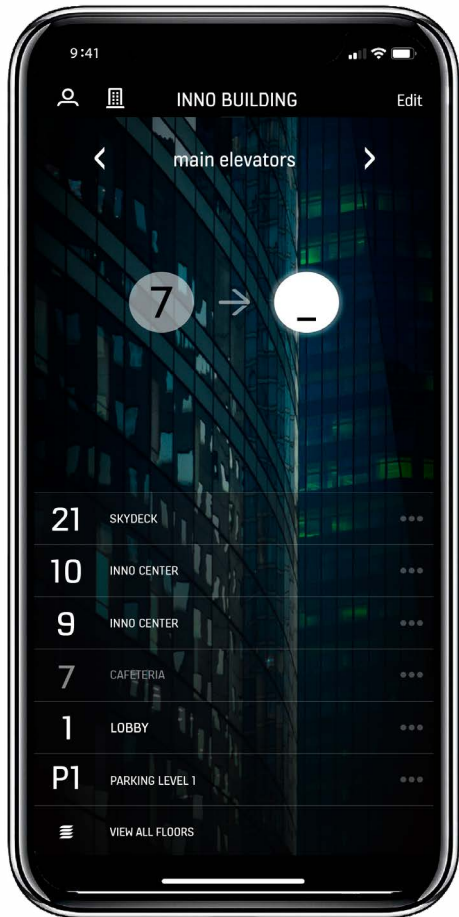

KEY BENEFITS

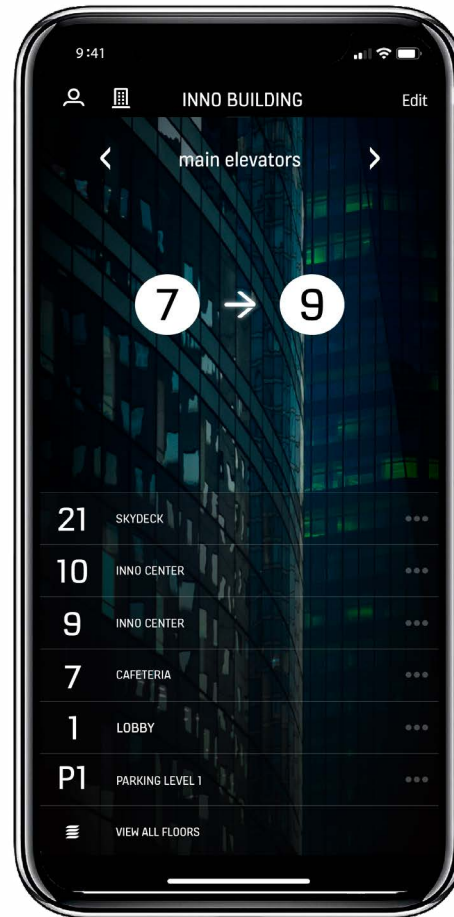

- Frequently used floors available as shortcuts from app home screen
- Elevator can be called with a single tap
- Can be used across multiple buildings
- Improves hygiene by removing the need to touch physical elevator call buttons on landings or in the elevator car
- Clear, intuitive user interface
- Cloud-based solution enables secure, flexible management

KONE MOBILE EXPERIENCE LIGHT

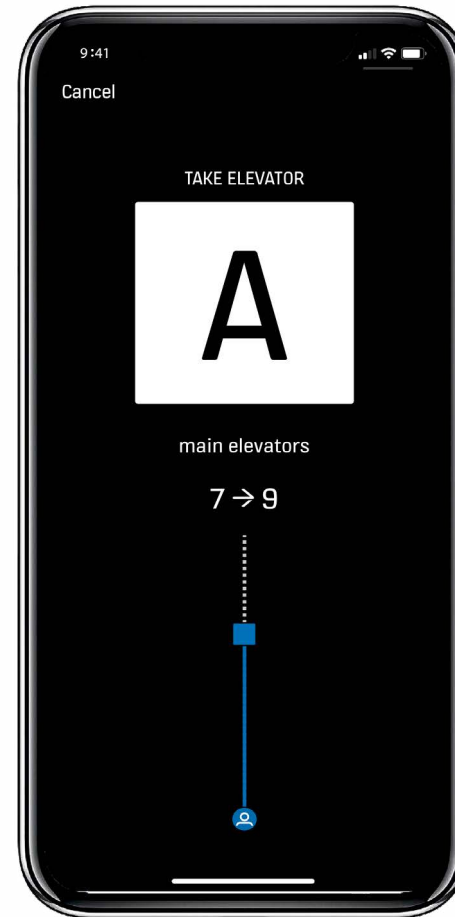

Call elevators using your smartphone
